Patents Showing: View as: Patents 21 - 30 on tracking manufacturir

Sort by relevance | Sort by date (new first) | Sort by date (old first)

Credit card embossing and recording system

US Pat. 4866545 - Filed Feb 25, 1988 - National Business Systems, Inc.

The system has low **energy consumption**, high embossing and recording accuracy ...
embossed characters without a high cost **manufacturing** process for the belt. ...

Method and apparatus for confining animals and/or humans using spread ...

US Pat. 5769032 - Filed Feb 3, 1997

This **energy** saving device greatly conserves **energy consumption** of the 55 ... (3)
allows for the **tracking** of one or more Personal Monitoring Units (PMUs) ...

Amplifier modulation

US Pat. 6737973 - Filed Oct 15, 2001 - 3M Innovative Properties Company

The computing device **processes** the information obtained by the ... The heat
dissipation requirements and power **consumption** of such an amplifier are not 65

...

Computer system and method for waste accounting, reduction, and evaluation

US Pat. 5532928 - Filed Feb 15, 1995 - Recra Environmental, Inc.

Both TQM and pollution prevention are proactive **processes** that dictate
measurements ... Among the key Clements arc: **tracking**, accounting and the
ability to ...

Credit card transporting embossing and recording system

US Pat. 4900168 - Filed Feb 25, 1988 - National Business Systems, Inc.

The system has low **energy consumption**, high embossing and recording accuracy ...
embossed characters without a high cost **manufacturing** process for the belt. ...

Process for manufacturing large-size porous shaped bodies of low density by ...

US Pat. 5151228 - Filed May 25, 1990 - Loro-Holding K.H. Vahlbrauk KG

A high heating speed requires that the **energy** current density or **energy** ... can
be regulated independently of the gas **consumption** of the oxidizing gas, ...

External combustion slidable vane motor with air cushions

US Pat. 4672812 - Filed May 27, 1986

It is intuitively felt that the control of **manufacturing** tolerances and the **use**
of low thermal expansion materials could minimize this **energy** loss down to ...

Loop track mobility system

US Pat. 4378133 - Filed Mar 24, 1980 - Lockheed Missiles & Space Company, Inc.

Inherently, the by-product of lower weight, fewer moving parts, and lowered
running resistance is lowered fuel **consumption** and **energy** saving which could 30

...

Optical pickup head apparatus
